

Males -

1. Official identification required.
2. Certificate of Veterinary Inspection (CVI) issued by an accredited veterinarian 30 days before entry, UNLESS shipping directly from the farm or ranch of origin to an approved tagging site. Official ID numbers must be recorded on the CVI.
1. The CVI must include the one of the following statements that is applicable to the bulls (see exception below):
 - a. 'Males listed are not from a Trich positive herd and tested negative within the last 60 days and no exposure to breeding females.'
 - b. 'Nebraska origin breeding males exported for seasonal grazing and have not commingled with any other herd.'
3. If show animals will be returning to state of origin, the statement "returning to state of origin" can be placed on the CVI rather than a trich test or statement.

Females -

1. Official identification required.
2. Certificate of Veterinary Inspection (CVI) issued by an accredited veterinarian 30 days before entry, UNLESS shipping directly from the farm or ranch of origin to an approved tagging site. Official ID numbers must be recorded on the CVI.
3. The CVI must include the following statements (see exception below):
 - a. 'The females listed on this CVI are known virgins.'
 - b. 'Females listed on this CVI are at least 120 days pregnant.'
 - c. 'No exposure to Trich positive or unknown status males since parturition.'
4. If show animals will be returning to state of origin, the statement "returning to state of origin" can be placed on the CVI rather than a trich test or statement.
