Bright Lights
MAINE-ANJOU SALE

SATURDAY, JANUARY 18, 2020
Livestock Center Auction Arena
NWSS • Denver, Colorado
3 p.m. MST • In the Yards
Welcome, Cattle Enthusiasts!

The American Maine-Anjou Association and our membership appreciate your interest in the 2020 Bright Lights Sale. Once again, the consignors have worked hard to bring you an elite group of bulls, females and frozen genetics.

With the current cattle markets demanding the need for efficiency and the ability to maximize profit, we have seen a rapidly growing interest in Maine-Anjou genetics. This demand has been evident by the strength in sales. Our breeders have committed to bringing their best to Denver, and it is apparent in this sale offering.

The cattle industry is in need of maximizing efficiency in the production of a pound of beef. MAINE-ANJOU is one of the leaders in this and can deliver it in a docile, calving friendly, black-hided, modern designed package. Our cattle can improve your bottom line by injecting feed efficiency, carcass yield, quality and eye appeal.

This set of cattle will be marketed with the most current set of genomically enhanced EPDs (GE EPDs), having just been compiled by Angus Genetics, Inc. (AGI). The Maine Angus program continues to grow, and this is not a surprise as we see great complementation between these beef breeds.

Please let myself or any of the staff know if we can assist you. The AMAA is here to serve you and provide support for your operation…we are here to help!

MAINE-ANJOU — Vision, Vigor, Value!

Best Regards,
M. Blake Nelson
AMAA Executive Vice-President

BRIGHT LIGHTS MAINE-ANJOU SALE • SATURDAY, JANUARY 18, 2020 • “IN THE YARDS”
Sale Feature...

Selling the buyer’s choice of heifer calves from the spring 2020 calf crop
at Nagel Cattle Company!

- Nagel Cattle Co., Springfield, SD
- It’s certain that programs generate a reputation from the matriarchs that reside in their cow herd. Through years of progressive breeding, Nagel Cattle Company has generated a female foundation that is one of the pillars of the Maine-Anjou breed. Although in the past few years show heifers have been sorted off for your appraisal at the farm, never in the history of the operation has the Nagel family offered the pick of the entire heifer crop! Years of progress, performance, quality and dedication are offered in this lot, and it will be worth every dollar spent! Note the multiple past champions and donor cows above. Rest assured, this is a once-in-a-lifetime opportunity to fast forward your operation.

Lot 1 terms of sale:
- The entire 2020 heifer calf crop is available for your selection, regardless of breed percentage.
- One-half of the purchase price is due sale day; the remaining half is due October 1, 2020 or on date of pick up, whichever occurs first.
- The Nagel family will allow viewing between the dates of September 15 and 20, 2020. Final selection must be made on or before October 1, 2020 and/or the date of pick up.
- Nagel Cattle Company reserves the right to two future flushes or a guarantee of six embryos at the convenience of the buyer and the expense of the seller.

- Beauprez Land & Cattle, Byers, CO
- Take advantage of this rare offering of BOE Gronc semen. Gronc topped the purebred division of the 2019 Bright Lights Sale and was chosen by many as the next step of improvement following his sire, BOE Epic, and grandsire, BOE Garth, both of which have positively impacted the breed. If you are looking for an AI sire that will add substance, power and quality, invest here. Gronc is extremely athletic and flexible at the ground while blending this with body mass and a great profile. This semen has been closed primarily to the owners’ herds and will be a tremendous asset to your breeding program. This purebred Maine sire is just beginning his influence on the breed, so get in on the ground floor.
- Selling one package of five units.

- Frank Jr. & Melissa Kralicek, Yankton, SD; Matt Gunderson, Gretna, NE
- Certainly a rare opportunity to step back and grab Maine-Anjou genetics that are anchored by two influential programs and more importantly, some of their best genetics. Wide Track has made a significant impact in our breed, and finding cattle that are a direct descendant is hard. Not to mention that these embryos are out of a Garwood cow that is a full sib to GVC iBull and was acquired in the dispersal. This donor dam is extremely impressive in person and has been a consistent generator. Don’t make a mistake and let this opportunity slip past!

- Selling one package of three embryos.

- Frank Jr. & Melissa Kralicek, Yankton, SD; Matt Gunderson, Gretna, NE
- Maternal Made needs no introduction, and this female mating to 34Y should prove to be a knockout. With her strong cow background and substantial track record for generating females, it’s a can’t-miss decision to purchase. These embryos sired by Maternal Made were derived from sexed semen and a traditional flush, which should make them a little more sticky.

- Selling one package of three embryos (sexed female).

- Frank Jr. & Melissa Kralicek, Yankton, SD; Matt Gunderson, Gretna, NE
- If adding to your Maine Angus battery is what you’re after, then look no further. 34Y has a proven track record for generating quality, and mated to Pendleton should produce progressive and exciting results, regardless of sex. Pendleton has made his mark in the Angus industry. To bring those genetics and reputation to an already maternal driven cow family should make something that will prove to be valuable.

- Selling one package of three embryos.
Purebred and High Percentage Maine-Anjou Bulls...

Lots 8–17

TLM Depth Charge 675D • Sire of Lot 8

- Dee Vee M's Farms, Zumbrota, MN
- Whether you are looking to stouten up your replacement females or produce class-winning breed steers, DVMS Grizzly is the guy for you. A soggy made Ante Up son with tremendous power and style, he has been a standout from day one. If you are serious about making Maine-influence show cattle, Grizzly belongs at the top of your list. He possesses so many of the traits judges are looking for today—clean, elegant front 1/3, huge rib, massive foot, he moves about the pen with added grace, and he has the hair of a TH carrier. His momma is red, so look for him to make those hard-to-find and highly sought after red Maine-Anjou calves. He is one we really should be keeping back for a herd bull, but we are committed to bringing our very best to Denver.

- Dee Vee M’s Farms, Zumbrota, MN
- A highly attractive Garth son with as much athleticism and flexibility from end to end as we have seen in a high Maine bull. DVMS Grover is built for the long haul. He combines skeletal correctness with overall mass into a large frame with a ton of growth, weaning at a whopping 762 lbs. with a WDA of 3.75, and he just keeps growing. Not only that, he was born overnight and unassisted in a polar vortex; when I found him the next morning, he had so much vigor I could hardly catch him to get him processed. If you are a commercial cattlemaster wanting a bull that throws big, vigorous progeny and you sell your calves by the pound, these are things you can truly appreciate. Count on Grover to add value to your bottom line next year.

- Blackjack is a great herd sire prospect sired by the popular Maternal Made. Study his unique pedigree and you will see proven high Maine genetics working here. This bull is smooth made, heavy muscled, great footed and puts it all together in one good looking package! We also really appreciate this guy on the move and how much flex he has in his joints. A really complete herd bull prospect with good numbers that will offer some outstanding genetics to his offspring.

- Kouri Cattle, Deaver, WY
- The name says it all. Mr. Terrific has been a favorite on our farm since birth. He’s a flashy bull out of a Full View daughter and sired by a Slam Dunk son. His square hip and powerful build are sure to impress. This bull will be versatile. Whether you’re looking to create show calves or looking to add great genetics to your commercial herd, he will excel either way.

Ed           BW           WW           yW          MiLK          TM           cEM          cW           Rea           MB             FT

Evfm Gridiron 171G

DOB 4/10/2019 • AMAA 504667 • TATTOO RE EVFM / LE 171G
3/4 Maine • Black • Polled

- Eastview Maines, Jasper, MN
- Here is an impressive son of Maternal Made. This high Maine herd sire prospect is so complete and balanced from front to back. For an April calf, this guy has a ton of muscle and performance wrapped up in a good looking package. We really think this bull will raise some tremendous females with the pedigree that he has. A smooth looking, high performing bull that will bring lots to the table.

Ed           BW           WW           yW          MiLK          TM           cEM          cW           Rea           MB             FT
9           2.3           46            64            14            38             0
Par Five Cattle Co., Lake City, SD

- We love the way this purebred bull is designed. He has so much rib and is powerfully constructed with a unique combination of muscle in an eye-catching profile. If you are searching for a purebred bull that can impact your cow herd, this Middle Management son will get the job done.

---

Par Five Cattle Co., Lake City, SD

- We have always been impressed with the build of this bull. He is so bold in his rib cage, sound on the move and powerful in his muscle. A real breeding bull with so much to offer. His mother was purchased in Griswold's South Dakota dispersal and has left us a great set of daughters retained in our herd. Sired by the BPF Mad Money bull, who is responsible for some of the best cows in our herd. Bid with confidence and put this bull to work for you.

---

Par Five Cattle Co., Lake City, SD

- If you're looking for a bull to impact your breeding program, this NAGE Ante Up 95C son will get the job done. He is sharp fronted, extended in his skeleton, bold in his rib and powerful from behind... all the reasons cattlemen purchase Maine-Anjou bulls.
Rigby Cattle Co., Fairview, UT

This is a great herd sire prospect! His mother has never let us down—she brings home a good one every year. Take a look at Big Jake, he is the real deal. BW 88 lbs. Adj. WW 756 lbs.

- Selling full possession and 1/2 interest; seller retains 1/2 semen interest.

Rigby Cattle Co., Fairview, UT

This is a moderate made premium Blend son. Take a look at these bulls in person, they are changing a bunch every day.

Rigby Cattle Co., Fairview, UT

Ace is a moderate calving ease bull with performance, posting an actual birth weight of 79 lbs. and an adj. WW of 714 lbs. Some of the best performance sires we have used are on the bottom side of this pedigree (Preview, Synergy and Suh).
BEAUPREZ LAND & CATTLE, BYERS, CO

**BOE Epic**
- Sire of Lots 25 & 27
- This might be one of the most unique high Maine creatures you will find—a high Maine with the hair of a percentage bull. Sired by our high seller a few years ago, Epic, and his mother is an Ante Up daughter that is tremendous. This mating was built to succeed! Whether you're searching for a bull to breed sought-after feeder cattle, building a program or even wanting to show this beast, all are safe bets. Qwavo is one unique, jaw dropping bovine.

**BEAUPREZ LAND & CATTLE, BYERS, CO**

**BOE Offset Et**
- Sire of Lots 26 & 28
- Another high Maine here. Everything we could hope for, he is sound and functional with great bone and foot size and stupid hairy for a purebred. I believe Offset will blitz your breeding program, adding dimension, power, performance and movement that every producer likes to see in his operation. Offset is worth making a trip to Denver.

**BEAUPREZ LAND & CATTLE, BYERS, CO**

**BOE Turnpike Et**
- Sire of Lots 26 & 28
- You talk about power, soundness and eye appeal...927G possesses it all! Might I add he is a full brother to our past high seller Gronc, whose progeny many are excited to see. This Ante Up cow is as good as they come and hardly misses. Come see this purebred Maine for yourself.

**BEAUPREZ LAND & CATTLE, BYERS, CO**

**BOE FAME**
- Sire of Lots 27 & 29
- We named this bull FAME for a reason. You talk about a freak for a purebred Maine and with a unique pedigree. Sired by Garth and out of a Doppler cow, 916G is freak structured, free moving, correct in every line and not to mention his great temperament. He is just an April calf, but do not overlook this guy. He is destined to do huge things. We believe this young future sire is everything that his sire is but maybe a tad smoother. Worth the trip.

- Blind Badger Ranch, Fort Morgan, CO
- We have a big time herd sire prospect in BBR Game On. When you talk about purchasing your next bull and cow families and pedigrees are important to you, look right here. Breed greats like Whiskey, X, Unlimited Power and Ali all reside in this bull’s family tree. If the paper doesn’t get you fully convinced, check him out on foot. Game On is stout featured, wide pinned and heavy muscled and is still ultra-attractive in his front 1/3. Big time pedigree. Big time bull.
Buck Cattle Co. & Morton Cattle Co., Stratford, OK

- Game Day is an exciting young bull that is stout featured, big at the ground, loose made and athletic. He is sired by Makers Mark, one of the best maternal sires we have used in the past few years. Used mainly in embryo transplant, Makers Mark sired the Third overall female at the 2017 Junior National, Reserve Champion Female at the 2018 Junior National, Champion Maine in 2018 at Tulsa, high selling female in the 2018 First Class Female Sale and BkMT First Rate. Makers Mark was lost this past year, and with his stock on the rise, tie into one of his best sons to date. Maternal brother to Lot 33.

- Selling 2/3 interest and full possession; seller retains 1/3 semen interest.

Buck Cattle Co. & Morton Cattle Co., Stratford, OK

- Game Plan is the result of a stellar set of Epic x Belly Dancer ET calves. There were just two born this spring, and his heifer mate sold this fall for $60,000. “Complete” best describes him. A smooth made bull built with integrity from the ground up, Game plan is stout ended, soft sided, balanced from end to end and loaded with quality. A maternal bred bull with herd bull power! enough can’t be said about how good the epic cattle are. His dam, Belly Dancer, in only her second year of ET has moved herself into a leading role. In her first year, she produced the lead bull in our champion pen, BkMT first Rate, who was a highlight in the 2019 Bright Lights Sale, and a Maternal Made heifer that sold for $35,000.

- Selling 2/3 interest and full possession; seller retains 1/3 semen interest.

Buck Cattle Co. & Morton Cattle Co., Stratford, OK

- Here is a definite sale feature in this stout featured, long spined bull with killer looks. It is hard to build a bull with this much muscle and width while keeping them this athletic and flexible. He is definitely hard to punch a hole in from a phenotypic or pedigree standpoint. Gunpowder is a full brother to BkMT Genuine and to a heifer calf that sold this fall for $50,000. His dam was a Wisdom out of the great 5010 donor owned by Moore Cattle Co. The 906 donor was without a doubt my favorite cow on the ranch. Jaw dropping looks, massive hip and body depth and beautiful uddered. She died last winter but left a legacy.

- Selling 2/3 interest and full possession; seller retains 1/3 semen interest.
**Maine Angus Bulls... Lots 35 and 36**

**WHAT IS MAINE ANGUS?** The Maine Angus program is an initiative created by the American Maine-Anjou Association (AMAA) to showcase the complementation of Maine-Anjou genetics when crossed with Angus or Red Angus cattle. This program will reveal Maine-Anjou cattle's ability to enhance feed efficiency and red meat yield when placed on British-based genetics. This program should provide seedstock that will increase production and carcass yield through heterosis.

The name Maine Angus is both strong and informative by stating exactly what breeds are present in said animal. The standard requirement is that both parents must be registered at the AMAA, American Angus Association (AAA) or Red Angus Association of America (RAAA). This will provide confirmed lineage and genetic information along with valuable EPDs. Through a partnership with the AAA, EPDs are updated with the latest genetic evaluation by the AAA, which will provide breeders and customers the best genetic prediction available. This program is focused on producing quality registered offspring that will aid in the incorporation of Maine-Anjou genetics into the mainstream of the USA beef sector.

**PROGRAM STANDARDS** Maine Angus refers to cattle with the following characteristics: a) The animal will have from 3/8 Maine-Anjou to 5/8 Maine-Anjou blood and have from 3/8 registered Angus to 5/8 registered Angus and/or registered Red Angus blood; b) Both parents must be registered at the AMAA, AAA or RAAA to confirm lineage; c) Qualifying cattle can have no more than 1/8 of non-registered blood or other breeds; d) A registered Maine Angus bull must be proven free of genetic defects PHA and TH. Depending on the Maine Angus bull’s genetic makeup, the individual must also be proven free of known Angus lethal genetic defects (e.g. AM, NH and CA) and/or known lethal Red Angus genetic defects (e.g. AM, NH, CA and O5), whether determined by pedigree or test; e) A registered Maine Angus female must be proven free of genetic defects phA and Th.

**MAINE ANGUS COLOR STANDARDS** All qualifying individuals will be predominately solid black or red in color. White markings are only allowed on the underline and switch of the tail. Feet and legs must be solid black or red. NOTE: All Maine Angus animals that do not meet the color requirement but were registered prior to Jan. 1, 2019, will retain their Maine Angus papers. They will not be able to exhibit/show in the Maine Angus division but are still eligible to show as MaineTainers. If an animal is registered Maine Angus but is found to not meet the color requirements, they will be reverted to a MaineTainer registration.

- This is a great half-blood bull. Imax cattle have never disappointed us. Note his adjusted WW of 722 lbs. You will love his calves. He did pop some small scurs since weaning.

**RIGBYS VISION 621G**

DOB: 3/5/2019  •  AMAA 504635  •  TATTOO LE RIG621G
5/8 Maine  •  Black  •  Polled

- **Rigby Cattle Co., Fairview, UT**
- This bull is just one of the reasons we are so excited about his sire, Evolution. There is a bunch of performance you don’t want to miss out on here. This is a herd sire prospect with an impressive weaning weight that adjusted to 731 lbs.

AMERICAN MAINE-ANJOU ASSOCIATION SALE TERMS & CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certificate check as settlement before releasing any cattle.

Risk: All animals are the owner’s risk prior to their sale and become the property of the purchaser as soon as declared “sold” by the auctioneer (but will be cared for at the purchaser’s risk for a reasonable length of time).

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All animals sell with proper individual health certificates, making them eligible for interstate transport to most destinations within the U.S.

Announcements: Announcements from the auction block will take precedence over statements in the sale catalog and other advertising. We reserve the right to withdraw any sale lot not meeting our specifications prior to sale time.

Registry Certificates: All animals shall carry papers from the American Maine-Anjou Association. These papers will be transferred to the new owner at the consignor’s expense.

Shipping: Assistance will be given in making shipment after the sale, but no risk will be assumed by the seller. Expenses incident thereto are the responsibility of the purchaser, who should furnish shipping instructions at time of settlement.

Breeding Guarantee: Females – Females represented as being “safe in calf” will have been examined and declared safe; they are considered breeders without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. NO guarantee shall apply to suckling calves. NO guarantee is given that bred females will deliver a live calf. Bulls and Females – Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and of breeding age, may be returned to seller at buyer’s expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. Should the animal fail to prove a breeder, the seller, at their option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price. In case the animal in question should develop to be a problem breeder due to negligence or improper management by the purchaser, the seller’s guarantee does not apply. In cases where the animal is subjected to any hormonal or surgical reproduction techniques after this sale, this guarantee shall be null and void. Any complaints regarding breeding difficulties must be reported in writing by the buyer to seller within the time limit specified above, and animals returned must be free from disease and in good condition.

Liabilities: All persons who attend the sale do so at their own risk. The sellers and the sale manager assume no liability, legal or otherwise, for any accidents that may occur. Neither does the sale manager assume any liability for loss of or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and representatives act only as a medium between buyer and seller. They are not responsible in any way for any failure on the part of the buyer and the seller to live up to his obligations or for the truth of any warranties or representation expressed or implied.

Contract: The above terms and guarantees shall constitute a contract between buyer seller of each animal and shall be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction, and the rights and obligations of the two parties connected thereto are not covered by these Sale Terms and Conditions.
